what is urbanization?

Urbanization, urbanisation or urban drift is the **physical growth of urban areas** as a result of global change.

Urbanization is also defined by the United Nations as **movement of people from rural to urban areas** with population growth equating to urban migration

what is urbanization?

change of physical form of village into urban (in situ urbanization)

cause of urbanization?

pull factors of urban areas
push factors of rural areas

what is implication of urbanization?

change of physical form / urban morphology
change of live style
environmental impact
“floating people”
suburbanization
counter-urbanization

Discussion: high speed urbanization

- Faktor apa yang menyebabkan urbanisasi yang cepat?
- Problem apa yang timbul akibat kecepatan perubahan ke urban (urbanisasi) yang tidak terkendali?
- Bagaimana dengan di Indonesia?
